

Time to buy OCP Presale, yay!

Buying OCP Presale tokens is quite straight forward. You just need a MetaMask account with enough BNB to purchase the number of OCP Presale tokens you want. If you don't have either MetaMask or BNB, it's all good. Here's how to get both...

Getting and setting up your MetaMask Wallet..

Step 1. **Download and install MetaMask.** To do so, simply follow this link and follow the instructions:

<https://metamask.io/download/>

Step 2. **Add BNB Chain to your MetaMask Wallet.** To do so, simply follow this link and the instructions described:

<https://www.bnbchain.org/en/blog/adding-bnb-chain-to-your-metamask-wallet/>

Funding your MetaMask Wallet with some BNB..

Step 3. **Get some BNB.** To do so you'll need to set up an account with either Binance, Crypto.com or eToro (only centralized exchanges where you can buy BNB), link a bank account or credit card, and then purchase BNB. We recommend Binance - to do so simply follow this link and the instructions described:

<https://www.binance.com/en/support/faq/how-to-register-on-binance-app-360042718372>

Once your account is set up and your bank account or credit card is linked, use the estimator on our presale page to determine how much BNB you need in order to purchase the number of OCP Presale tokens you want.

OCP Presale Token Purchase Limit
Minimum 250000 OCP (\$25 USD)
Maximum 2500000 OCP (\$250 USD)

Congratulations! If you've followed the steps 1-4 you will have in your MetaMask wallet the BNB required to purchase the number of OCP tokens you want.

Now you just need to connect your MetaMask wallet to the presale page using the Connect Wallet button on the top right hand corner of the screen,

select the amount of OCP tokens you want at the bottom left hand side of the screen, and hit the BUY OCP button!
